Stuart,

It seems as though you are making mistakes.

First and foremost, your mistyping your email account.

It is not vice_president@oldla.org

It is vice-president@oldla.org

Secondly, your question regarding "oldla.leg" is interesting; send me a photo so I can see it. Please also include a screenshot of your mail client setup.

Regards,

Gustavo A. Alza, Jr.

When you get a moment let me know
I sent myself an email from the "oldla.org" account.
when I hit reply the email address said "oldla.leg".
and I never received the returned email.
is that a problem in my setup or something else. When I typed into mail a
test from my earthlink account vice_president@oldla.org I received an
error message about an illegal address?
